Pinterest account set up from scratch

After reviewing your business's current suitability for the platform, with a typical Pinterest "set up from scratch" package you'll have:

- Admin set up completed

- Keyword research and full list of keywords completed

- Optimised account settings which will include:
  - Creation of profile name, picture, and profile description
  - Location and email address set up
  - Websites and social accounts claimed and verified

- 10-20 Pinterest boards produced all of which are aligned with above keyword research and existing content you have available

- Pin template design for all boards created (package price includes outsourced pin design), uploaded and optimised with keyword rich names and descriptions

- List of "Group board" and "Tailwind Tribe" suggestions created

- Rich Pins enabled (if compatible with your website provider)

- A topline recommendation document on how to manage the account going forwards

We know that each client and each customer is unique! Let's get together or jump on a call and discuss!
